# About FUMIKO

“ *I developed the Face Yoga Method to help you walk with confidence in the world.* ”

— Fumiko Takatsu

Education and teaching are sacred to Fumiko Takatsu, founder of The Face Yoga Method. She knows the importance of empowering yourself with skills that last a lifetime, and being able to pass on these gifts to improve the lives of others.

Fumiko has always been a teacher. From her career in her twenties and thirties teaching High School and College, to now teaching women globally how to reclaim their confidence.

In 2003, Fumiko created the Face Yoga Method out of necessity after a tragic car accident that left her face & body misaligned. She realized that just as she was rehabilitating her body through specific and regimented strengthening exercises, she could also do the same on her face.

After years of trial and error on her own face, Fumiko was able to isolate certain muscles, tone specific parts of her face and develop **over 90 Face Yoga exercises that can strengthen, tighten and brighten the face.** The Face Yoga Method was born.

Since 2012, Fumiko and her business partner and sister-in-law Maria, have built a female-led business and created multiple **online Face Yoga Method Programs that have helped over 1 million people worldwide.** Additionally, Fumiko has published seven books, two eBooks, developed a Skin Care Product Line and has been featured in countless media channels for her work.

# About FACE YOGA

“ *She is dedicated to helping people all over the world to look and feel their very best.* ”

**Facial exercise is the practice of using the 57+ muscles of the face to achieve a desired outcome and is most popularly used to prevent wrinkles, diminish fine lines and correct asymmetry.** When done correctly, facial exercise has very low risk and creates beautiful results 100% naturally, which makes it the best alternative to Botox and invasive procedures.

## OUR METHOD

For nearly two decades, **Fumiko has mastered her Method of facial exercise and helped millions of Face Yogis reclaim their face, their glow, and their confidence.** After years of Trial and error, Fumiko has designed a **bulletproof Method** that when taught correctly, can address any facial concern of any student.

What's more, the Face Yoga Method is not just facial exercises to improve the superficial outer appearance. After taking years to perfect the Method, Fumiko realized there is much more to it. She reflects her Method and philosophy in the Face Yoga Method 5R's. In the Teacher Certification Course, you will learn first hand from Fumiko the intricate details and the depth of the 5R. This unique approach will differentiate you as a teacher.

Your habits and community will make or break your success. With the right support system to keep you practicing, teaching and building your business brick-by-brick, you'll come out of the 6-month program ready to take on clients with confidence!
